Election/Restriction

Species Restriction to one of the following inventions is required under 35 U.S.C. 121:

The claims are generic to a plurality of disclosed patentably distinct species comprising:

- A specific species of a particularly named lipid agent as listed in claims 27, 28, and 30.
The elected species would correspond to or be embraced by one of the lipids as claimed in claims 20-26, 29, 31. As such, lipids as listed in claims 20-26, 29, 31 but are not embraced by the elected species will be treated as non-elected species.
- A specific species of a particularly named protein as listed in claims 32-36.
- A specific species of a particularly named sugar as listed in claims 47 or in claims 36-46 that were not listed in or embraced by those cited in claim 47.
- A specific species of a particularly named polymer with a particular diameter as listed in claims 58-62.
- A specific species of a particularly named cell as listed in claims 71 and 72.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from the respective claims, which species are structurally not the same, and a search of one does not necessarily overlap with others as claimed, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

Art Unit: 1632

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. 1.17(h).
